Productos configurables | Configurable products | Produits configurables | Prodotti configurabili | Konfigurierbare Produkte

ES

Con la premisa de ofrecer más opciones y además optimizar los recursos, hemos ideado un sistema de productos configurables.

La idea es muy simple. Todo producto marcado con el icono Mix&Match, es un producto configurable, donde el cliente ha de pedir (como se indica en el apartado) dos o más elementos y poder crear/configurar su luminaria.

Este sistema modular ofrece la posibilidad de personalizar varios productos de nuestra gama, combinando estructuras individuales o múltiples con pantallas decorativas en varios materiales y/o colores.

Cada elemento/componente tiene su código, por lo tanto, el cliente puede combinarlos a su gusto, y configurará la luminaria que más se ajusta a sus necesidades.

El montaje y la instalación son muy sencillos.

Con Mix&Match aumentamos de forma exponencial el número de opciones disponibles.

Si tienes alguna duda de su funcionamiento, no dudes en contactar nuestro equipo comercial.

EN

With the aim of offering more options while also optimizing resources, we have devised a system of configurable products.

The idea is very simple: any product marked with the Mix&Match icon is a configurable product, where the customer must order (as indicated in the relevant section) two or more elements in order to create/configure their luminaire.

This modular system offers the possibility to customize several products in our range by combining single or multiple structures with decorative shades in various materials and/or colors.

Each element/component has its own code; therefore, the customer can combine them as they wish and configure the luminaire that best suits their needs.

Assembly and installation are very straightforward.

With Mix&Match, we exponentially increase the number of available options.

If you have any questions about how it works, please do not hesitate to contact our sales team.

Ce système modulaire offre la possibilité de personnaliser plusieurs produits de notre gamme, en combinant des structures simples ou multiples avec des abat-jour décoratifs dans différents matériaux et/ou couleurs.

IT

Con l'obiettivo di offrire più opzioni e, allo stesso tempo, ottimizzare le risorse, abbiamo ideato un sistema di prodotti configurabili.

L'idea è molto semplice: ogni prodotto contrassegnato con l'icona Mix&Match è un prodotto configurabile, in cui il cliente deve ordinare (come indicato nella sezione) due o più elementi per poter creare/configurare la propria lampada.

Questo sistema modulare offre la possibilità di personalizzare diversi prodotti della nostra gamma, combinando strutture singole o multiple con paralumi decorativi in diversi materiali e/o colori.

Ogni elemento/componente ha il proprio codice; pertanto il cliente può combinarli a piacere e configurare la lampada che meglio si adatta alle sue esigenze.

Il montaggio e l'installazione sono molto semplici.

Con Mix&Match aumentiamo in modo esponenziale il numero di opzioni disponibili.

Se hai qualche dubbio sul funzionamento, non esitare a contattare il nostro team commerciale.

DE

Mit dem Ziel, mehr Optionen anzubieten und gleichzeitig die Ressourcen zu optimieren, haben wir ein System konfigurierbarer Produkte entwickelt.

Die Idee ist ganz einfach: Jedes Produkt, das mit dem Mix&Match-Symbol gekennzeichnet ist, ist ein konfigurierbares Produkt. Dabei muss der Kunde (wie im Abschnitt angegeben) zwei oder mehr Elemente bestellen, um seine Leuchte zu erstellen/zu konfigurieren.

Dieses modulare System bietet die Möglichkeit, mehrere Produkte aus unserem Sortiment zu personalisieren, indem Einzel- oder Mehrfachstrukturen mit dekorativen Schirmen in verschiedenen Materialien und/oder Farben kombiniert werden.

Jedes Element/jede Komponente hat einen eigenen Code. Daher kann der Kunde sie nach Belieben kombinieren und die Leuchte konfigurieren, die am besten zu seinen Bedürfnissen passt.

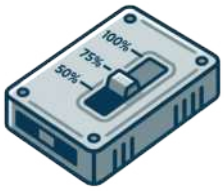

Montage und Installation sind sehr einfach.

Mit Mix&Match erhöhen wir die Anzahl der verfügbaren Optionen exponentiell.

Wenn Sie Fragen zur Funktionsweise haben, zögern Sie nicht, unser Vertriebsteam zu kontaktieren.

Easy Link

ES

Diseña, configura y pide Easy Link en pocos pasos. Easy Link nace para resolver una necesidad muy concreta: crear soluciones de iluminación versátiles en espacios donde la instalación eléctrica es limitada o no está situada donde nos gustaría. Su enfoque modular permite desarrollar composiciones únicas combinando bases de conexión, perfiles, curvas, accesorios y luminarias, adaptándose a cada proyecto con total libertad.

Para que ese proceso sea todavía más sencillo, presentamos el **Configurador Easy Link**: una herramienta pensada para proyectar de forma ágil, visualizar la composición y definir con precisión todos los componentes necesarios. El configurador guía la elección de bases, longitudes de perfil, curvas y accesorios, ayudando a construir el sistema paso a paso y asegurando que cada solución sea completa, coherente y fácil de instalar. Con el configurador, pasar de la idea al pedido es más rápido y seguro: tendrás una propuesta clara y una selección completa de referencias para presupuestar y solicitar el sistema con confianza, reduciendo dudas, tiempos y posibles errores. Disponemos de un dossier donde podrás encontrar mucha más información sobre nuestro sistema modular. Pregúntanos por él!

Design, configure and order Easy Link in just a few steps. Easy Link was created to meet a very specific need: to develop versatile lighting solutions in spaces where the electrical installation is limited or not located where we would like it to be. Its modular approach allows you to create unique compositions by combining connection bases, profiles, curves, accessories and luminaires, adapting to each project with complete freedom.

To make this process even easier, we present the **Easy Link Configurator**: a tool designed for fast planning, visualizing the composition and precisely defining all the components required. The configurator guides you in selecting bases, profile lengths, curves and accessories, helping you build the system step by step and ensuring each solution is complete, coherent and easy to install. With the configurator, moving from idea to order is faster and safer: you'll have a clear proposal and a complete selection of references to quote and request the system with confidence, reducing doubts, lead times and potential errors. We have a dossier where you can find much more information about our modular system. Ask us for it!

Concevez, configurez et commandez Easy Link en quelques étapes. Easy Link est né pour répondre à un besoin très concret : créer des solutions d'éclairage polyvalentes dans des espaces où l'installation électrique est limitée ou n'est pas située là où nous le souhaiterions. Son approche modulaire permet de développer des compositions uniques en combinant bases de connexion, profils, courbes, accessoires et luminaires, en s'adaptant à chaque projet en toute liberté.

Pour rendre ce processus encore plus simple, nous présentons le **Configurateur Easy Link** : un outil pensé pour concevoir rapidement, visualiser la composition et définir avec précision tous les composants nécessaires. Le configurateur guide le choix des bases, des longueurs de profils, des courbes et des accessoires, aidant à construire le système étape par étape et garantissant que chaque solution soit complète, cohérente et facile à installer. Avec le configurateur, passer de l'idée à la commande est plus rapide et plus sûr : vous disposerez d'une proposition claire et d'une sélection complète de références pour chiffrer et commander le système en toute confiance, en réduisant les doutes, les délais et les erreurs potentielles. Nous disposons d'un dossier dans lequel vous trouverez beaucoup plus d'informations sur notre système modulaire. Demandez-le-nous !

Easy Link in wenigen Schritten entwerfen, konfigurieren und bestellen. Easy Link wurde entwickelt, um ein ganz konkretes Bedürfnis zu lösen: vielseitige Beleuchtungslösungen in Bereichen zu realisieren, in denen die Elektroinstallation begrenzt ist oder sich nicht dort befindet, wo wir sie gerne hätten. Dank seines modularen Ansatzes lassen sich einzigartige Kompositionen erstellen, indem Anschlussbasen, Profile, Kurven, Zubehör und Leuchten kombiniert werden – mit maximaler Freiheit für jedes Projekt.

Um diesen Prozess noch einfacher zu machen, präsentieren wir den **Easy Link Konfigurator**: ein Tool, das für eine schnelle Planung, die Visualisierung der Komposition und die präzise Definition aller benötigten Komponenten entwickelt wurde. Der Konfigurator führt durch die Auswahl von Basen, Profillängen, Kurven und Zubehör, hilft dabei, das System Schritt für Schritt aufzubauen, und stellt sicher, dass jede Lösung vollständig, stimmig und einfach zu installieren ist. Mit dem Konfigurator wird der Weg von der Idee zur Bestellung schneller und sicherer: Sie erhalten einen klaren Vorschlag sowie eine vollständige Auswahl an Referenzen, um das System zuverlässig zu kalkulieren und zu bestellen – und reduzieren dabei Rückfragen, Zeitaufwand und mögliche Fehler. Wir haben ein Dossier, in dem Sie viele weitere Informationen zu unserem modularen System finden. Fragen Sie uns danach!

By installing our DALI receiver, we can control our DALI luminaires with this multi-channel control; this control can control up to 4 groups of luminaires, and can also be linked to infinite receivers, and control with a single control all the luminaires desired (as long as a signal is received). It also has 3 memory positions capable of storing different configurations between groups. No additional installation is required, i.e. a standard two-wire on/off installation can be used; the receiver is responsible for generating the DALI bus. It is also possible to control the luminaire from a push button by running an extra cable to the luminaire. One receiver is required for each luminaire.

También dispone de 3 posiciones de memoria capaz de almacenar distintas configuraciones entre grupos. No se requiere una instalación adicional; es decir que podemos usar una instalación on/off estándar de dos cables; el receptor se encarga de generar el bus DALI. También se podrá controlar la luminaria desde un pulsador haciéndole llegar un cable extra a la luminaria. Se necesita un receptor por cada luminaria.

RECEIVER Remote Control | RECEPTOR mando a distancia

By installing this receiver in a luminaire (without power limitation), we can control our DALI product with RF signal (remote control). The receiver requires direct 230V AC power supply and generates the DALI signal that communicates with the driver, so that no additional cables are needed in the installation.
To be able to switch on, off and dim from the wall and in a switched manner with the remote control, an additional cable must be installed up to the luminaire and the switch must be replaced by a push button; this is how to install for optimal functioning if dimming is also desired from the wall. One receiver can support up to 8 remote controls.

En installant ce récepteur dans un luminaire (sans limitation de puissance), nous pouvons contrôler notre luminaire DALI avec un signal RF (télécommande). Le récepteur nécessite une alimentation électrique directe de 230V AC et génère le signal DALI qui communique avec le driver, de sorte qu'aucun câble supplémentaire n'est nécessaire dans l'installation. Pour pouvoir allumer, éteindre et régler depuis le mur et de manière commutée avec la télécommande, il faut installer un câble supplémentaire au luminaire et changer l'interrupteur en bouton poussoir ; Cette installation est la plus recommandée pour son bon fonctionnement si vous souhaitez régler également depuis le mur. Un récepteur peut prendre en charge jusqu'à 8 télécommandes.

Installando questo ricevitore in un apparecchio di illuminazione (senza limitazione di potenza), possiamo controllare il nostro prodotto DALI con segnale RF (telecomando). Il ricevitore richiede l'alimentazione diretta a 230V AC e genera il segnale DALI che comunica con il driver, in modo che non siano necessari cavi aggiuntivi nell'installazione.
Per poter accendere, spegnere e dimmerare dalla parete e in modo commutato con il telecomando, è necessario installare un cavo aggiuntivo fino all'apparecchio e sostituire l'interruttore con un pulsante; ecco come installare per un funzionamento ottimale se si desidera la dimmerazione anche da parete. Un ricevitore può supportare fino a 8 telecomandi.

Durch den Einbau dieses Empfängers in eine Leuchte (ohne Leistungsbegrenzung) können wir unser DALI-Produkt mit einem RF-Signal steuern (Fernsteuerung). Der Empfänger benötigt eine direkte 230V AC-Stromversorgung und erzeugt das DALI-Signal, das mit dem Treiber kommuniziert, so dass keine zusätzlichen Kabel in der Installation erforderlich sind.
Um mit der Fernbedienung von der Wand aus ein- und auszuschalten und zu dimmen, muss ein zusätzliches Kabel bis zur Leuchte verlegt und der Schalter durch einen Taster ersetzt werden; so funktioniert die Installation optimal, wenn auch das Dimmen von der Wand aus gewünscht ist. Ein Empfänger kann bis zu 8 Fernbedienungen unterstützen.

The color rendering index of a light is a measure of its abilty to reproduce the colors of various objects faithfully in comparison with an ideal or natural light source.

Capacidad para reproducir los colores en comparación con una fuente de luz natural.

IK DEGREE | GRADO IK

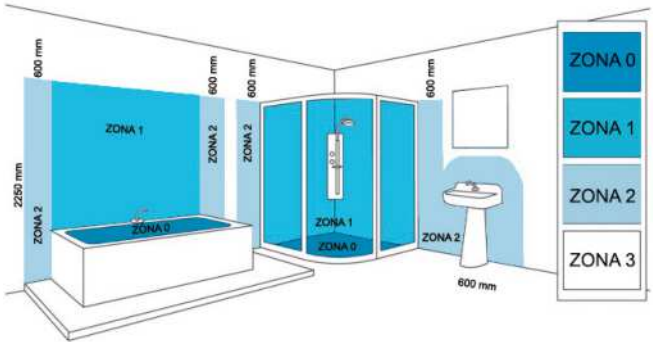

IK ratings are defined as IKXX, where "XX" is a number from 00 to 10 indicating the degrees of protection provided by electrical enclosures (including luminaires) against external mechanical impacts. The IK rating scale identifies the ability of an enclosure to resist impact energy levels measured in joules (J).

Las clasificaciones IK se definen como IKXX, donde "XX" es un número del 00 al 10 que indica los grados de protección proporcionada por las envolventes eléctricas (incluidas luminarias) contra elementos externos impactos mecánicos. La escala de clasificación IK identifica la capacidad de una carcasa para resistir niveles de energía de impacto medidos en julios (J).
